

STEEL INDUSTRY

New Machine / Existing Line Upgradation

Kuubera Motion Controls Pvt. Ltd., apart of the 'Kuubera Group' which is involved in day to day industrial motion control activities. We provide turn-key industrial motion control solutions, which cover AC Drives, DC Drives, Servo Drives, PLC, Motion Control, Hydraulic Servo and proportional valve based Motion Control Systems.

Our activities include Servo Drive based PLC Control Panel Manufacturing, Automation, Special Purpose Machines Manufacturing and Automation, System Integration, Electronic and Electrical Products. These products are extensively used for various applications in Steel and other Engineering and allied industries. Our company continues to maintain or exceed standards that are demanded by the best in the industry.

As we have an extensive experience in Steel Industry, we extend our support for selecting conceptual machine design and also recommend best mechanical partners suitable and take the turn-key responsibility with best after sales support.

STEEL INDUSTRY MILESTONES:

- Successfully completed more than 200 automation projects. We take turn-key projects responsibility from inspection to re-installation
- First line of 60 cuts / min installed in 1996 with ordinary induction motor
- Successfully Automated 6 mm Rotary Shear in 2013
- Automated CR Steel Trapezoidal line in 2009
- Installation / Automated 25 mm, 2000 mm width HR CTL line
- Strong Support Team
- Ready Spare Available
- Installation Base at Nigeria, Nepal, Ethiopia, Indonesia, Singapore, Malaysia and Bangladesh

- ROTARY & SHEAR
- TRAPEZOIDAL CUT TO LENGTH
- CUT TO LENGTH
- FLY SHEAR
- SLITTING LINE
- PRESS FEED LINES
- ALUMINIUM / TIN PLATE
- HR HIGH THICKNESS LINES 25 mm

STEEL PROJECTS:

► Cut To Length

► Press Feed

► HR High Thickness

► Slitting Line Machine

► Trap Shear

► Rotary Shear

► Fly Shear

► Ring Rolling

► CR CTL

About Group:

Established in the year 2007, Kuubera Group is one of the leading industrial motion control solution provider in India. We have successfully completed over four hundred projects in Paper, Steel, Press, Forging, SPM'S, Bearing industry, etc. With design, manufacturing & installation which are appreciated and praised by valuable customers all over the globe.

WE WORK FOR

Steel Industry

Paper Industry

Corrugation Industry

SPM / FMCG
